## EARLY ARM DISCLOSURE STATEMENT

**PROGRAM NAME:** 5/1 Adjustable Rate Mortgage – 30 Year Term

### IMPORTANT LOAN INFORMATION – PLEASE READ CAREFULLY

This disclosure describes the features of the adjustable-rate mortgage (ARM) program you are considering. Information on other ARM programs is available upon request. You should carefully read this disclosure; the promissory note, deed of trust or mortgage; any riders; and all other documents that you will be asked to sign if you accept an ARM loan.

**ADJUSTABLE RATE MORTGAGE MEANS YOUR PAYMENT MAY CHANGE IN THE FUTURE.** You are applying for an Adjustable Rate Mortgage (ARM) loan. This means that your interest rate and monthly payments may change during the life of your loan. Your monthly payments will increase if the interest rate rises and decrease if it falls. The date or dates on which changes can occur (referred to in this disclosure as “Change Date”) will be specified in the ARM loan documents. This ARM is based on the terms and conditions set forth in this disclosure and in the loan documents. We have based this disclosure on recent interest rates, index and margin values, discounts, and fees. Ask us for our current interest rate and margin.

An ARM is different from a fixed-rate mortgage loan. For a fixed-rate loan, the monthly payments of principal and interest do not change during the life of the loan. You should consider carefully which type of loan is best for you.

#### HOW YOUR INTEREST RATE AND PAYMENT ARE DETERMINED.

Your interest rate will be determined by means of an index that may change from time to time.

**The Index.** The interest rate change on this ARM will be based on an interest rate index (referred to in this disclosure as the “Index.”) The Index is the weekly average yield on U.S. Treasury Securities adjusted to a constant maturity of one year published weekly in the Wall Street Journal. Information about the index is available in the Federal Reserve Statistical Release H-15 (<https://www.federalreserve.gov/releases/h15/>).

**Interest Rate.** Your interest rate is based on the Index value plus a margin, rounded to the nearest **0.125% (one-eighth of one percent)**. A change in the Index generally will result in a change in the interest rate. The amount that your interest rate may change also may be affected by the periodic interest rate change limitations and the lifetime interest rate limits, as discussed below.

**Initial Interest Rate Discount.** Your initial interest rate will be discounted and will not be based on the Index used to make later adjustments. You should note, however, that because your initial interest rate will be discounted, your interest rate may increase on the first Change Date even if the Index remains the same or decreases. Ask us for the amount our adjustable rate mortgages are currently discounted.

**Interest Rate Adjustments.** Your interest rate under this ARM can change after **60 (sixty)** month(s) and every **12 (twelve)** months thereafter. Your interest rate cannot increase or decrease more than **2.00% (two percentage points)** at first adjustment and **2.00% (two percentage points per subsequent adjustment)** from the initial interest rate excluding any buydown. After the initial interest rate discount, your interest rate will never be greater than **6.00% (six)** percentage points above the initial interest rate or lower than the floor rate of **2.75%**.

**HOW YOUR PAYMENTS ARE DETERMINED.** Your initial monthly payment of principal and interest will be determined based on the interest rate, loan balance, and remaining loan term. Your payment will be set to amortize the loan over a period of **360** payments.

**Frequency of Payment Changes.** Based on increases or decreases in the Index, payment amounts under this ARM loan can change after **60 (sixty)** month(s) and every **12 (twelve)** months thereafter. However, your monthly payment amount could change more frequently if there is a change in the taxes, assessments, insurance premiums, or other charges required to be made into an escrow or impound account.

**Limitations on Interest Rate Payment Changes.** Your interest rate will not increase or decrease on the first change date by more than **2.00% (two)** percentage points from the initial interest rate excluding any buydown. After the initial adjustment period, your interest rate will not increase or decrease by more than **2.00% (two)** percentage points per year. Your interest rate cannot increase more than **6.00% (six)** percentage points above the initial interest rate (excluding any buydown) over the life of the loan.

**Adjustment Notices.** You will be notified at least **210**, but no more than **240**, days before the first payment at the adjusted level is due after the initial interest rate adjustment of the loan. This notice will contain information about the adjustment, including the interest rate, payment amount, and loan balance. You will be notified at least **60**, but no more than **120**, days before the first payment at the adjusted level is due after any interest rate adjustment resulting in a corresponding payment change. This notice will contain information about the adjustment, including the interest rate, payment amount, and loan balance.

**HOW YOUR PAYMENT CAN CHANGE (Maximum Interest & Payment Example).** After the first Change Date, your payment can change every **12 (twelve)** month(s) based on changes in the loan term, interest rate, or loan balance. For example, on a **\$10,000** loan with a **360-month** term and an initial discounted interest rate of **6.125%**, in effect as of **June 14<sup>th</sup>, 2024**, the maximum amount that the interest rate can increase at the first Change Date is **2.00%** to **8.125%**. Over the life of the loan, the interest rate can never rise more than **6.00%** above the initial interest rate or exceed **12.125%**. Similarly, the monthly payment can increase from a first-year payment of **\$60.76** to a maximum of **\$74.25** in the second year that follows the first Change Date. The periodic payment may increase or decrease substantially depending on changes in the rate.

To see what your payment would be, divide your mortgage amount by \$10,000; then multiply the monthly payment by that amount. For example, the monthly payment for a mortgage amount of \$60,000 would be: \$60,000 divided by \$10,000 = 6. Multiply the payment amount by this number, e.g.  $6 \times \$60.76 = \$364.56$  per month.

**PREPAYMENT.** You may pay this ARM loan in whole or part without penalty at any time. If you are paying more than your regularly scheduled payment, you must notify us as to how you want the funds applied.

**DEMAND FEATURE.** This loan **does not** include a demand feature.

**DISCLOSURES FOR OTHER ARM PROGRAMS** are available on request.

This means that your interest rate and monthly payments may change during the life of your loan. Your monthly payments will increase if the interest rate rises and decrease if it falls. The date or dates on which changes can occur (referred to in this disclosure as “Change Date”) will be specified in the ARM loan documents. This ARM is based on the terms and conditions set forth in this disclosure and in the loan documents. We have based this disclosure on recent interest rates, index and margin values, discounts, and fees. Ask us for our current interest rate and margin.

A change in the Index generally will result in a change in the interest rate. The amount that your interest rate may change also may be affected by the periodic interest rate change limitations and the lifetime interest rate limits, as discussed below.

**Initial Interest Rate Discount.** Your initial interest rate will be discounted and will not be based on the Index used to make later adjustments. You should note, however, that because your initial interest rate will be discounted, your interest rate may increase on the first Change Date even if the Index remains the same or decreases. Ask us for the amount our adjustable rate mortgages are currently discounted.

**Interest Rate Adjustments.** Your interest rate under this ARM can change after **84 (eighty-four)** month(s) and every **12 (twelve)** months thereafter. Your interest rate cannot increase or decrease more than **2.00% (two percentage points)** at first adjustment and **2.00% (two percentage points per subsequent adjustment)** from the initial interest rate excluding any buydown. After the initial interest rate discount, your interest rate will never be greater than **6.00% (six)** percentage points above the initial interest rate or lower than the floor rate of **2.75%**.

**HOW YOUR PAYMENTS ARE DETERMINED.** Your initial monthly payment of principal and interest will be determined based on the interest rate, loan balance, and remaining loan term. Your payment will be set to amortize the loan over a period of **360** payments.

**Frequency of Payment Changes.** Based on increases or decreases in the Index, payment amounts under this ARM loan can change after **84 (eighty-four)** month(s) and every **12 (twelve)** months thereafter. However, your monthly payment amount could change more frequently if there is a change in the taxes, assessments, insurance premiums, or other charges required to be made into an escrow or impound account.

**Limitations on Interest Rate Payment Changes.** Your interest rate will not increase or decrease on the first change date by more than **2.00% (two)** percentage points from the initial interest rate excluding any buydown. After the initial adjustment period, your interest rate will not increase or decrease by more than **2.00% (two)** percentage points per year. Your interest rate cannot increase more than **6.00% (six)** percentage points above the initial interest rate (excluding any buydown) over the life of the loan.

**Adjustment Notices.** You will be notified at least **210**, but no more than **240**, days before the first payment at the adjusted level is due after the initial interest rate adjustment of the loan. This notice will contain information about the adjustment, including the interest rate, payment amount, and loan balance. You will be notified at least **60**, but no more than **120**, days before the first payment at the adjusted level is due after any interest rate adjustment resulting in a corresponding payment change. This notice will contain information about the adjustment, including the interest rate, payment amount, and loan balance.

**HOW YOUR PAYMENT CAN CHANGE (Maximum Interest & Payment Example).** After the first Change Date, your payment can change every **12 (twelve)** month(s) based on changes in the loan term, interest rate, or loan balance. For example, on a **\$10,000** loan with a **360** month term and an initial discounted interest rate of **6.25%**, in effect as of **June 14<sup>th</sup>, 2024**, the maximum amount that the interest rate can increase at the first Change Date is **2.00% to 8.25%**. Over the life of the loan, the interest rate can never rise more than **6.00%** above the initial interest rate or exceed **12.25%**. Similarly, the monthly payment can increase from a first-year payment of **\$61.57** to a maximum of **\$75.13** in the second year that follows the first Change Date. The periodic payment may increase or decrease substantially depending on changes in the rate.

To see what your payment would be, divide your mortgage amount by \$10,000; then multiply the monthly payment by that amount. For example, the monthly payment for a mortgage amount of \$60,000 would be: \$60,000 divided by \$10,000 = 6. Multiply the payment amount by this number, e.g. **6 x \$61.57 = \$369.42** per month.

**PREPAYMENT.** You may pay this ARM loan in whole or part without penalty at any time. If you are paying more than your regularly scheduled payment, you must notify us as to how you want the funds applied.

**DEMAND FEATURE.** This loan **does not** include a demand feature.

## EARLY ARM DISCLOSURE STATEMENT

**PROGRAM NAME: 10/1 Jumbo Adjustable Rate Mortgage – 30 Year Term**

### IMPORTANT LOAN INFORMATION – PLEASE READ CAREFULLY

This disclosure describes the features of the adjustable-rate mortgage (ARM) program you are considering. Information on other ARM programs is available upon request. You should carefully read this disclosure; the promissory note, deed of trust or mortgage; any riders; and all other documents that you will be asked to sign if you accept an ARM loan.

**ADJUSTABLE RATE MORTGAGE MEANS YOUR PAYMENT MAY CHANGE IN THE FUTURE.** You are applying for an Adjustable Rate Mortgage (ARM) loan. This means that your interest rate and monthly payments may change during the life of your loan. Your monthly payments will increase if the interest rate rises and decrease if it falls. The date or dates on which changes can occur (referred to in this disclosure as “Change Date”) will be specified in the ARM loan documents. This ARM is based on the terms and conditions set forth in this disclosure and in the loan documents. We have based this disclosure on recent interest rates, index and margin values, discounts, and fees. Ask us for our current interest rate and margin.

An ARM is different from a fixed-rate mortgage loan. For a fixed-rate loan, the monthly payments of principal and interest do not change during the life of the loan. You should consider carefully which type of loan is best for you.

#### HOW YOUR INTEREST RATE AND PAYMENT ARE DETERMINED.

Your interest rate will be determined by means of an index that may change from time to time.

**The Index.** The interest rate change on this ARM will be based on an interest rate index (referred to in this disclosure as the “Index.”) The Index is the weekly average yield on U.S. Treasury Securities adjusted to a constant maturity of one year published weekly in the Wall Street Journal. Information about the index is available in the Federal Reserve Statistical Release H-15 (<https://www.federalreserve.gov/releases/h15/>).

**Interest Rate.** Your interest rate is based on the Index value plus a margin, rounded to the nearest **0.125% (one-eighth of one percent)**. A change in the Index generally will result in a change in the interest rate. The amount that your interest rate may change also may be affected by the periodic interest rate change limitations and the lifetime interest rate limits, as discussed below.

**Initial Interest Rate Discount.** Your initial interest rate will be discounted and will not be based on the Index used to make later adjustments. You should note, however, that because your initial interest rate will be discounted, your interest rate may increase on the first Change Date even if the Index remains the same or decreases. Ask us for the amount our adjustable rate mortgages are currently discounted.

**Interest Rate Adjustments.** Your interest rate under this ARM can change after **120 (one hundred twenty)** month(s) and every **12 (twelve)** months thereafter. Your interest rate cannot increase or decrease more than **2.00% (two percentage points)** at first adjustment and **2.00% (two percentage points)** per subsequent adjustment from the initial interest rate excluding any buydown. After the initial interest rate discount, your interest rate will never be greater than **6.00% (six)** percentage points above the initial interest rate or lower than the floor rate of **2.75%**.

**HOW YOUR PAYMENTS ARE DETERMINED.** Your initial monthly payment of principal and interest will be determined based on the interest rate, loan balance, and remaining loan term. Your payment will be set to amortize the loan over a period of **360** payments.

**Frequency of Payment Changes.** Based on increases or decreases in the Index, payment amounts under this ARM loan can change after **120 (one hundred twenty)** month(s) and every **12 (twelve)** months thereafter. However, your monthly payment amount could change more frequently if there is a change in the taxes, assessments, insurance premiums, or other charges required to be made into an escrow or impound account.

**Limitations on Interest Rate Payment Changes.** Your interest rate will not increase or decrease on the first change date by more than **2.00% (two)** percentage points from the initial interest rate excluding any buydown. After the initial adjustment period, your interest rate will not increase or decrease by more than **2.00% (two)** percentage points per year. Your interest rate cannot increase more than **6.00% (six)** percentage points above the initial interest rate (excluding any buydown) over the life of the loan.

**Adjustment Notices.** You will be notified at least **210**, but no more than **240**, days before the first payment at the adjusted level is due after the initial interest rate adjustment of the loan. This notice will contain information about the adjustment, including the interest rate, payment amount, and loan balance. You will be notified at least **60**, but no more than **120**, days before the first payment at the adjusted level is due after any interest rate adjustment resulting in a corresponding payment change. This notice will contain information about the adjustment, including the interest rate, payment amount, and loan balance.

**HOW YOUR PAYMENT CAN CHANGE (Maximum Interest & Payment Example).** After the first Change Date, your payment can change every **12 (twelve)** month(s) based on changes in the loan term, interest rate, or loan balance. For example, on a **\$10,000** loan with a **360** month term and an initial discounted interest rate of **6.75%**, in effect as of **March 28<sup>th</sup>, 2023**, the maximum amount that the interest rate can increase at the first Change Date is **2.00%** to **8.75%**. Over the life of the loan, the interest rate can never rise more than **6.00%** above the initial interest rate or exceed **12.75%**. Similarly, the monthly payment can increase from a first-year payment of **\$64.86** to a maximum of **\$78.67** in the second year that follows the first Change Date. The periodic payment may increase or decrease substantially depending on changes in the rate.

To see what your payment would be, divide your mortgage amount by \$10,000; then multiply the monthly payment by that amount. For example, the monthly payment for a mortgage amount of \$60,000 would be: \$60,000 divided by \$10,000 = 6. Multiply the payment amount by this number, e.g. **6 x \$64.86 = \$389.16** per month.

**PREPAYMENT.** You may pay this ARM loan in whole or part without penalty at any time. If you are paying more than your regularly scheduled payment, you must notify us as to how you want the funds applied.

**DEMAND FEATURE.** This loan **does not** include a demand feature.
